

Aerial Imaging &
Industrial Solutions

Rockin King Ranch

Location: Rockin King Ranch
(Class G airspace)

Customer: Van Baize
(940)366-3407

Operators: Cody Trahern

Date: 26-Feb-18

Description: Overall wildlife count/verification requested by client.
Aerial survey with thermal sensor identified several species on the property; count below.
Long haired species were not located with thermal sensor however the Animal Inventory list provided by client indicates count below.

Species	Count
Whitetail bucks/does	Total counted: 147 Thermal FLIR XT
Aoudad	
Fallow deer bucks/does	
Ibex rams/eues	
Scimitar Oryx males/females	
Watusi	

Species	Count
Texas Dall rams/eues	Animal Inventory 2015-17 indicates 129 animals of these species. Note: Long-haired species are often difficult to identify with thermal sensors due to the inability to penetrate through to their body temperature, i.e. the surface of their thick coats are at ambient temperature and do not create a thermal differential.
Black Hawaiian Rams	
Catalina Rams	
Corsican Rams	
Jacobs Four Horn Rams/eues	
Merino	
Mouflon Rams/eues	
Painted Desert Rams	
Red Sheep Rams	
Bison
